

## Snow Day Work Packets

Beginning December 1, any snow days we have will be considered Non-Traditional Instruction (NTI) days and students will be required to complete assignments at home for those days. By completing work at home on snow days, we will not have to “make up” these missed days at the end of the school year. These days will count as a full day of instruction for students and teachers.

This folder contains snow packets for these NTI days for your child to complete if school is cancelled for bad weather. Please keep the folder in a safe place at home. Every snow day, have your child complete the work for one day. Your child needs to hand in the work on the first day we are back in school.

If you have any questions while your child is completing the work, please feel free to email your child’s teacher. We will be checking our email throughout the day and will try to answer any questions you or your child may have.
